

ABOUT ME

love creating things, mainly virtual ones. I started lots of years ago developing websites and still loving it. have done nearly everything in web development, from front end developer to system administrating. My greatest passion is learn new things and apply them to my job. I always say that a good job is a job well done and I apply this to everything I do.

TECH STACK

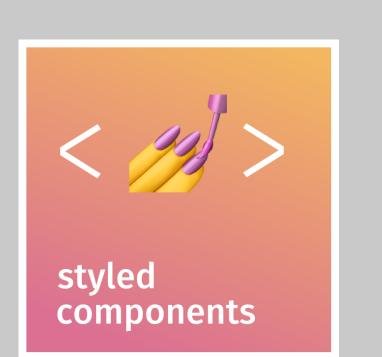

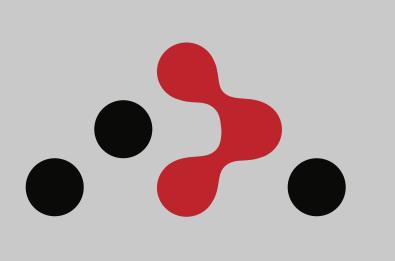

MIQUEL COMPANY RODRIGUEZ

Fullstack Developer

EXPERIENCE

October 2015 - Current Barcelona

KODIFY MEDIA GROUP

Lead Frontend Developer

Leading the migration from a high traffic Symfony/JQuery website (porntube.com) to a NodeJS/React platform. Also created a high throughput event logging platform using Node, Kinesis, Redshift that is used for internal stats recollection. Currently migrating the site styling from Sass to styled-components.

April 2014 - October 2015 Barcelona

CHICPLACE

CTO

Lead a team of 4 developers while we cleaned the platform's code. Also improved the system's architecture by adding autoscalling capabilities and adapted it to AWS services. In the time we improved the platform performance and opened a market in Latam. Also created the company IOS app api.

June 2010 - April 2014 Sant Just Desvern

OFERTIX

Tech Lead

Developed back end and front end of all Ofertix.com sites (Ofertix.com, NiceAnd-Crazy.com, NiceAndCrazy.fr, Primeriti.es). Also developed other side projects like deploy system inspired in Capistrano and a custom redis http cache library for symfony. I collaborated in several OpenSource projects.

March 2009 - June 2010 Barcelona

FREELANCE WEB DEVELOPER

Freelance web developer

Worked in several projects using Symfony 1.4, Magento, Diem Cms. Also created an online marketing tool for MpSystems that sent bulk SMS and E-mail.

EDUCATION
